STEEL PALLET

TRANSPORTATION & LOGISTICS

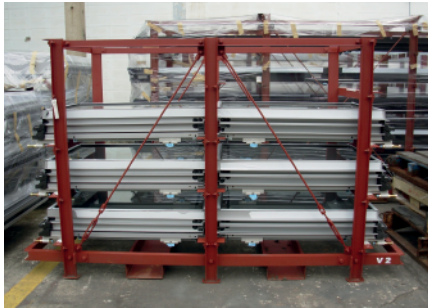

C.M.'s Steel pallet has long played an important role in transportation and logistics industry. Not only can it provide convenience in customer's goods classifications, but also assure optimum storage efficiency, easy loading, safety and eventually cost saving to the users.

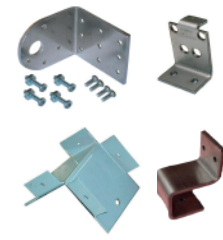

STEEL PALLET

MADE TO

CONSTRUCTION MATERIALS

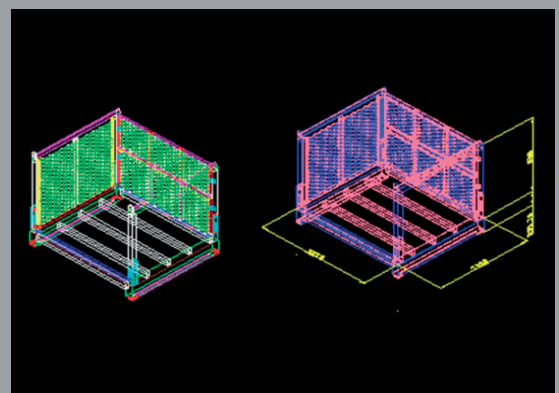

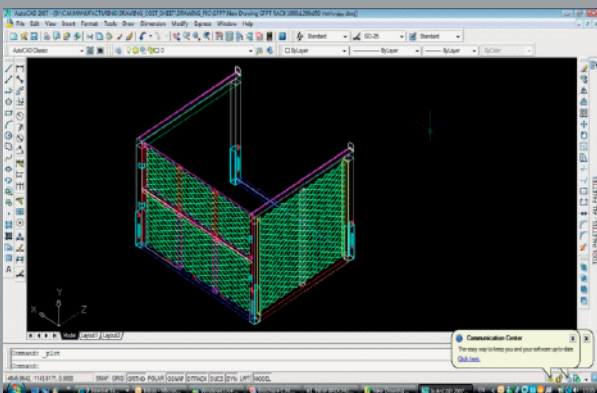

C.M.'s Steel pallet has been extensively used for delivering construction materials to worksites. Our pallets are carefully designed and manufactured to satisfy our customer's needs for highest level of convenience and efficiency. Its features also allow the most fragile materials which require special handling, such as glasses and frame, to be well protected during transportation.
